MARINE TRAILER QUICK REFERENCE BUYING GUIDE

•Pictured with idler hubs.

•Axle Beam Mounting U-Bolt Kit

•Axle Beam Sliding Saddle

M22 Square Tube Spring Axle Beam

STANDARD FEATURES:

- *EZ-Lube Spindles Standard on Axles & Beams
- *Stainless Steel Wear Sleeves
- *Hot Dip Galvanized Beam
- *Gal-Dex Coated Hubs & Hub/Drum
- *1 1/16" Spindle with 2" x .180 Square Tube
- *L44649 Inner & Outer Bearing
- *Non-Cambered Axle Beam

MARINE TRAILER QUICK REFERENCE BUYING GUIDE

AXLES =

There are several axle options for Marine trailers. Below is a summary of the axles offered. For complete axle specifications, details and features see the 2017 TexTrail Trailer Parts Catalog or ask your sales representative for information not included in this catalog.

M22 Square Tube Spring Axle

STANDARD FEATURES:

- *2.2K Capacity Axle Beam
- *EZ-Lube Spindles
- *Stainless Steel Wear Sleeves
- *Hot Dip Galvanized Beam
- *Gal-Dex Coated Hubs
- *1 1/16" Spindle with 2" x .180" Square Tube
- *L44649 Inner & Outer Bearing
- *Non-Cambered Axle Beam

UPGRADE OPTIONS:

- *V-Bent Center Beam

M35 Square Tube Spring Axle

STANDARD FEATURES:

- *3.5K Capacity Axle Beam
- *EZ-Lube Spindles
- *Stainless Steel Wear Sleeves
- *Hot Dip Galvanized Beam
- *Gal-Dex Coated Hubs & Hub/Drum
- *84F Spindle with 2" x 0.250" Square Tube Beam
- *L68149 Inner Bearing & L44649 Outer Bearing
- *Non-Cambered Axle Beam

UPGRADE OPTIONS:

- *V-Bent Center Beam
- *Hydraulic Freebacking or Disc Brakes

D22 Round Tube Spring Axle

STANDARD FEATURES:

- *2.2K Capacity Axle Beam
- *EZ-Lube Spindles
- *Stainless Steel Wear Sleeves
- *Hot Dip Galvanized Beam
- *Gal-Dex Coated Hubs
- *1 1/16" Spindle with 1.75" x 0.156" Round Tube Beam
- *L44649 Inner & Outer Bearing
- *Non-Cambered Axle Beam

UPGRADE OPTIONS:

- *V-Bent Center Beam

Brake axle shown for illustration only.

D35 Round Tube Spring Axle

STANDARD FEATURES:

- *3.5K Capacity Axle Beam
- *EZ-Lube Spindles
- *Stainless Steel Wear Sleeves
- *Hot Dip Galvanized Beam
- *Gal-Dex Coated Hubs & Hub/Drum
- *84F Spindle with 2.38" x 0.156" Round Tube Beam
- *L68149 Inner Bearing & L44649 Outer Bearing
- *Non-Cambered Axle Beam

UPGRADE OPTIONS:

- *V-Bent Center Beam
- *Drop Spindle with 3" x 0.191" Round Tube Beam
- *Hydraulic Freebacking or Disc Brakes

9 Torsion Suspension Axle

STANDARD FEATURES:

- *2.2K Capacity Axle Beam
- *EZ-Lube Spindles
- *Stainless Steel Wear Sleeves
- *Hot Dip Galvanized Beam
- *GAL-DEX™ Coated Hubs & Hub/Drum
- *1-1/16" Spindle with 2.17" Square Tube Beam
- *L44649 Inner & Outer Bearing
- *Cambered Axle Beam

UPGRADE OPTIONS:

- *V-Bent Center Beam
- *Removable Spindles

10 Torsion Suspension Axle

STANDARD FEATURES:

- *3.5K Capacity Axle Beam
- *EZ-Lube Spindles
- *Stainless Steel Wear Sleeves
- *Hot Dip Galvanized Beam
- *GAL-DEX™ Coated Hubs & Hub/Drum
- *84F Spindle with 2.62" Square Tube Beam
- *L68149 Inner Bearing & L44649 Outer Bearing
- *Cambered Axle Beam

UPGRADE OPTIONS:

- *V-Bent Center Beam
- *Removable Spindles
- *Hydraulic Freebacking or Disc Brakes

AXLES =

D52 Round Tube Spring Axle

STANDARD FEATURES:

- *5.2K Capacity Axle Beam
- *EZ-Lube Spindles
- *Stainless Steel Wear Sleeves
- *Hot Dip Galvanized Beam
- *GAL-DEX™ Coated Hubs & Hub/Drum
- *42F Spindle with 3" x 0.191" Round Tube Beam
- *25580 Inner Bearing & LM67048 Outer Bearing
- *Non-Cambered Axle Beam

UPGRADE OPTIONS:

- *V-Bent Center Beam
- *Drop Spindle with 3" x 0.250" Round Tube Beam
- *Hydraulic Freebacking or Disc Brakes

Brake axle shown for illustration only.

D60 Round Tube Spring Axle

STANDARD FEATURES:

- *6K Capacity Axle Beam
- *EZ-Lube Spindles
- *Stainless Steel Wear Sleeves
- *Hot Dip Galvanized Beam
- *GAL-DEX™ Coated Hubs & Hub/Drum
- *42F Spindle with 3" x 0.250" Round Tube Beam
- *655 Bolt - 25580 Inner Bearing & 15123 Outer Bearing
- *865 Bolt - 25580 Inner Bearing & 14125A Outer Bearing
- *Non-Cambered Axle Beam

UPGRADE OPTIONS:

- *V-Bent Center Beam
- *Drop Spindle with 3" x 0.302" Round Tube Beam
- *Hydraulic Freebacking or Disc Brakes

11 Torsion Suspension Axle

STANDARD FEATURES:

- *5.2K Capacity Axle Beam
- *EZ-Lube Spindles
- *Stainless Steel Wear Sleeves
- *Hot Dip Galvanized Beam
- *GAL-DEX™ Coated Hubs & Hub/Drum
- *42F Spindle with 3.03" Square Tube Beam
- *25580 Inner Bearing & LM67048 Outer Bearing
- *Cambered Axle Beam

UPGRADE OPTIONS:

- *V-Bent Center Beam
- *Removable Spindles
- *Hydraulic Freebacking or Disc Brakes

11 Torsion Suspension Axle

STANDARD FEATURES:

- *6K Capacity Axle Beam
- *EZ-Lube Spindles
- *Stainless Steel Wear Sleeves
- *Hot Dip Galvanized Beam
- *GAL-DEX™ Coated Hubs & Hub/Drum
- *42F Spindle with 3.03" Square Tube Beam
- *655 Bolt - 25580 Inner Bearing & 15123 Outer Bearing
- *865 Bolt - 25580 Inner Bearing & 14125A Outer Bearing
- *Cambered Axle Beam

UPGRADE OPTIONS:

- *V-Bent Center Beam
- *Removable Spindles
- *Hydraulic Freebacking or Disc Brakes

Brake axle shown for illustration only.

D70 Round Tube Spring Axle

STANDARD FEATURES:

- *7K Capacity Axle Beam
- *EZ-Lube Spindles
- *Stainless Steel Wear Sleeves
- *Hot Dip Galvanized Beam
- *GAL-DEX™ Coated Hubs & Hub/Drum
- *42F Spindle with 3" x 0.250" Round Tube Beam
- *25580 Inner Bearing & 14125A Outer Bearing
- *Cambered Axle Beam

UPGRADE OPTIONS:

- *V-Bent Center Beam
- *Drop Spindle with 3.50" x 0.250" Round Tube Beam
- *Hydraulic Freebacking or Disc Brakes

Brake axle shown for illustration only.

12 Torsion Suspension Axle

STANDARD FEATURES:

- *7K Capacity Axle Beam
- *EZ-Lube Spindles
- *Stainless Steel Wear Sleeves
- *Hot Dip Galvanized Beam
- *GAL-DEX™ Coated Hubs & Hub/Drum
- *42F Spindle with 3.50" Square Tube Beam
- *25580 Inner Bearing & 14125A Outer Bearing
- *Cambered Axle Beam

UPGRADE OPTIONS:

- *V-Bent Center Beam
- *Removable Spindles
- *Hydraulic Freebacking or Disc Brakes

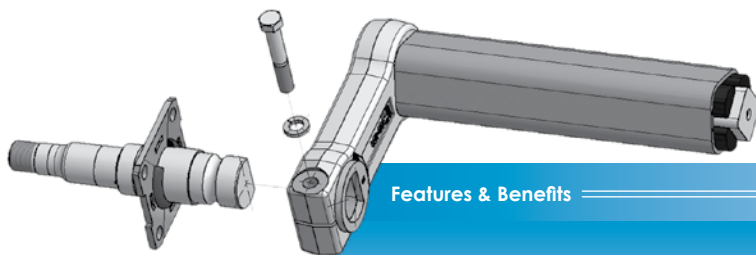

REMOVABLE SPINDLES =

"Ability to replace a damaged spindle in the field greatly reduces repair costs by not having to replace the complete axle."*

REPLACEMENT SPINDLE KIT		
DESCRIPTION	ID NO.	ITEM NO.
TF#9 2.2K REMOVABLE SPINDLE KIT	K71-742-00	8750108
TF#10 3.5K REMOVABLE SPINDLE KIT	K71-743-00	8750109
TF#11 6K REMOVABLE SPINDLE KIT	K71-744-00	8750110
TF#12 7K REMOVABLE SPINDLE KIT	K71-745-00	8750111

REMOVABLE SPINDLES

Features & Benefits

- Ability to replace a damaged spindle in the field greatly reduces repair costs by not having to replace the complete axle.
- With only one bolt to remove, the procedure is quick and easy
- Removal of the spindle requires no special tools.
- A positive spindle location with "D" washer design ensures proper brake flange location for brakes and EZ-Lube® hole.
- Positive depth location with clamping bolt and detent groove takes out the guess work with no measuring required.
- Clamping bolt and washer are made of stainless steel to resist corrosion resulting in easy removal.
- One spindle will replace either side, no need to order a left hand and right hand side.

Ordering Information:

- Removable Spindle Option must be designated at the time of ordering the axle.
- Only replace hub or hub-drum if damaged, although the bearing cones, cups and seals should be replaced.

*Only available on axles originally ordered from factory with specifically designed arms.

HYDRAULIC DRUM BRAKES =

Demco Freebacking Brakes incorporate a "Fall-Away" shoe which diminishes shoe drag when backing. The galvanized backing plate, stainless steel spring hardware, plated wheel cylinder and riveted marine brake shoe make this brake assembly highly durable. Requires periodic manual adjustment.

- Demco Marine Brake has galvanized back plate, stainless steel spring hardware, plated wheel cylinder and riveted marine brake shoe.
- 4 on 4.00" Bolt Hole Pattern
- 13" - 15" Wheel Size

3,500 LBS. • 10" X 2 1/4" HYDRAULIC FREEBACKING MARINE BRAKE ASSEMBLY

HYDRAULIC DISC BRAKES • 1-AXLE KITS

Experience the Deemaxx Difference:

- Exclusive MAXX COATING on caliper passed Salt Spray Test per ASTM-B-117-09 over 1008 hours with no RUST!
- Exclusive 120° Bleeder design means better bleeding, balanced system, and no more damaged bleeders!
- Exclusive Laser writing on caliper means instructions are always there!
- Exclusive Bolt design means no more mishandling or incorrect shipping of bolts!
- Exclusive Reverse Mount Slip On Rotor means cooler running, better plating, and no more premature corrosion!
- LIMITED LIFETIME WARRANTY!
- Ceramic Brake Pads are slotted, chamfered, and have a Stainless Steel Clip!
- Equals better stopping, longer life and corrosion protection!
- Solid / Rigid Ductile Iron Casting eliminate flexing and give you more Brake Torque!
- Bracket design give you twice as many mounting options for your caliper position!
- Uses only ISO QUALITY Certified Factories!
- PASSED THE SAE J2681 BRAKE TEST!

•The Best Salt Water Brake Available!

Available in MAXX COATING or STAINLESS STEEL 3,500 lbs. to 10,000 lbs. General Duty. Available as a Slip-On or Integral Kit.

•Slip-On

•Integral

This unique rotor cross section design actively draws cooling air from the rotor interior.

HYDRAULIC DISC BRAKES • 1-WHEEL KITS •

UPF Corrosion Resistance Integral Hub/Rotor & Caliper Disc Brake Kits:

- Corrosion resistant components included in all kits.
- Slider pins, pad guides, and anti-rattle springs are stainless steel in all kits.
- Banjo bolts and bleeder screws are zinc plated on zinc caliper; stainless steel on all other calipers.
- Ventilated rotors for temperature regulation to reduce brake bad deterioration, excessive wear and warping.
- Non-metallic, non-asbestos, organic pad materials to eliminate corrosion.
- Disc brake caliper to be used with 13" and larger wheels.
- Inlet/outlet port positions decrease amount of air in the system through a large range of torsion arm trailing angles.
- Braking forces are transferred to the yoke / anchor and not the caliper slider pins.

Available in ZINC PLATED, ALUMINUM or STAINLESS STEEL.

One Caliper fits either side. Fittings are shipped loose allowing installer to use the caliper on either side.

REPLACEMENT DISC BRAKE PAD KITS

ITEM NO.	DESCRIPTION	CAPACITY	MATERIAL
6450563	DISC PAD KIT 1-WHEEL	3.5K - 6K	STAINLESS STEEL

HYDRAULIC DISC BRAKES • 1-WHEEL KITS

FEATURES ON ALL CALIPERS:

- Inlet/outlet design port locations allow better bleeding results.
- Caliper body & piston are made of the same material, allowing the caliper body and piston to have the same rate of thermal expansion. Clearance between piston and caliper body stays the same regardless of temperature change.
- All braking forces are transferred directly to the caliper mounting bracket and not through the slider pins. Removing the braking forces from the slider pins allow the caliper body to float easier, resulting in cooler/better braking and even brake pad wear.
- Calipers can be plumbed in series to reduce the amount of fitting/connection points and ease of bleeding through only one caliper.
- The brass banjo fittings are rotatable which allows the brake lines direct entry into the caliper body from any angle.
- Stainless steel anti-rattle springs for quiet trailering and braking.

Zinc Caliper:

- Zinc Plated Caliper Body
- Chrome Plated Piston
- Zinc Plated Banjo Bolt & Bleeder Screw
- Stainless Steel Slider Pins
- Stainless Steel Pad Guides
- Zinc Plated Back Plate for Brake Pads

Aluminum Caliper:

- Corrosion Resistant Caliper Bracket
- Aluminum Caliper Body
- Aluminum Piston
- Stainless Steel Banjo Bolt & Bleeder Screw
- Stainless Steel Slider Pins
- Stainless Steel Pad Guides
- Corrosion Resistant Back Plate for Brake Pads

Stainless Steel Caliper:

- Stainless Steel Caliper Bracket
- Stainless Steel Caliper Body
- Stainless Steel Piston
- Stainless Steel Banjo Bolt & Bleeder Screw
- Stainless Steel Slider Pins
- Stainless Steel Pad Guides
- Stainless Steel Back Plate for Brake Pads

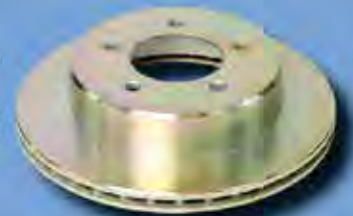

- Ultra thick, organic, non-asbestos, non-metallic brake pad friction material provides extra long brake pad life. Brake pads slide freely on corrosion resistant stainless steel surfaces

- Retail packaging available

- Heavy duty ventilated rotors dissipate heat rapidly by allowing cooling between the inner and outer brake surfaces. Rotor surface temperatures can rise rapidly from repeated stopping or slowing on mountain grades. Only ventilated rotors can stop this heat from building up to unacceptable levels. Less expensive, non-ventilated rotors overheat causing rapid brake pad deterioration, excessive rotor surface wear and rotor warping.

- Rotors available in integral (one piece) and slip-over hat style
- Integral hub & rotor offered in e-coat, Zinc+, and stainless
- Slip-over hat style rotors offered in Zinc+ and stainless steel
- Zinc+ is the most corrosion resistant conversion coating yet to be introduced to the metal finishing industry. This coating can provide over five times the protection when applied over zinc plating.
- Rotors & calipers fit wheels 13" and larger

HUB • HUB & DRUM ACCESSORIES

The VAULT™ "Hybrid Lubrication System" uses a semi-fluid oil in a pressurized chamber to give you the ultimate in wheel bearing lubrication and protection. At ambient temperature, the Hybrid Oil™ lubrication is thick with a viscosity approaching grease. As the bearing temperature rises during towing, the lubricant thins out, replenishing the bearing, reducing friction and dissipating heat. No inspection, no maintenance and no service required.

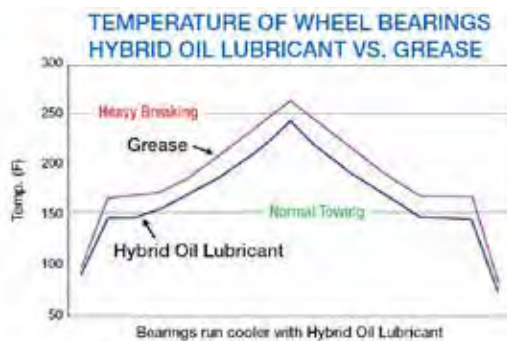

• Vault Service Kit

Benefits:

- 10 Year (unlimited miles), warranty available.
- Pressurized sealed chamber means nothing gets in or out.
- Stainless steel components, high temperature piston.
- Constantly replenishes the lubrication to the bearing.
- Bearings run cooler due to reduced friction.
- No visual inspection required.
- No access hole in wheel centers, allows for better looking wheel.
- No maintenance/service provides lower operating costs.

SLIDES & WRAPS

NOTE: ACTUAL DIMENSIONS OF THE PRODUCT

MARINE SLIDES				
ITEM NO	ID NO	DESCRIPTION	SIZE	QTY
8270057	23011	WHITE 1/4" CHANNEL PROFILE BUNK SLIDES	3" X 15"	10-EA

Bunk Wrap

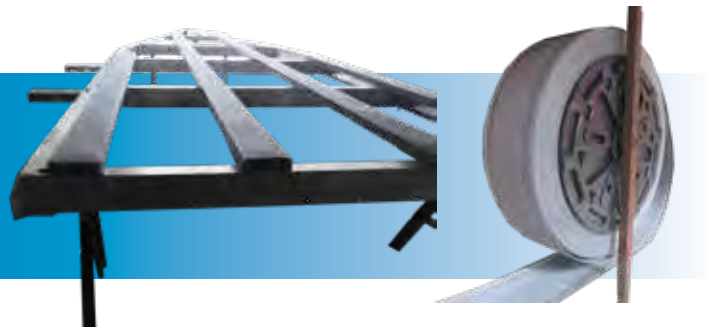

- Reduce force required to load or unload your boat by over 300%.
- Less strain on arms, ropes and pulleys.
- Eliminate the fine particles of sand embedded into the carpet to grind away at your gel coat.
- Wash out channels flush sand, salt and other debris away from the hull.
- Guaranteed not to crack, chip, or wear out, and is impervious to sun and salt.

Improvement with Bunk Wrap • Problems Addressed:

1. **SIZING:** Profile size of Bunk Wrap (Both 2x4 & 2x6) are too large and leave more than 1/4" to 3/8" gap on the width and height of the bunk board, if not wrapped over carpet.
+NEW NARROW SIZING: Better fit for 2x4 and 2x6 widths. Going over carpet is no longer an option.
2. **LIVING HINGES:** Rolled Bunk Wrap has been hard to bend at living hinge areas.
+NEW HINGE DESIGN: 50% stronger & 10% reduction in bend force because of longer hinge design transition.
3. **END CAPS:** Sized too large for both 2x4 & 2x6.
+NEW END CAPS: 4-Sided flexible flange that holds part in 4 locations around board. "Optional" screw pockets on end cap (only required in consumer kit unless using OEM Recommended 1-1/2" Staples.)
4. **STAPLE FLANGE:** Too short and domed making it hard to staple Bunk Wrap to bunk board.
+NEW 3/8" longer tabs for more flexibility. Dented notches and trough for easy staple gun placement.

TIRE & WHEEL ASSEMBLIES

THE ULTIMATE IN TREADWEAR LIFE! GOODRIDE®

ST100
HEAT-LESS

Special HEAT-LESS technology utilizes heat resistant compounding to slow down tire aging and extend tire life.

Double steel belts for enhanced strength improving puncture resistance and vehicle towing stability.

Long life and low rolling resistance reduces tread wear and improves fuel economy.

Full nylon cap for added strength and durability

10/32" Automotive tread depth

AMERICA'S FASTEST GROWING TRAILER PARTS DISTRIBUTOR!

TIRE & WHEEL ASSEMBLIES

Galvanized Wheel & Tire Assemblies

GOODRIDE

BIAS

Bias construction nylon ply is ideal for many towable applications including boat trailers, utility trailers, stock trailers, and recreational vehicles. Meets or exceeds FMVSS 119.

RADIAL

Radial tire features double polyester cord body, double steel belts and nylon overlays which contribute up to 15% more endurance in loading conditions when compared to other brands. Meets or exceeds FMVSS 119 & FMVSS 139.

Benefits:

- Lighter than Chrome
- Does not pit or peel
- Will not oxidize, fade or discolor
- Environmentally friendly process

NOTE: NOT RECOMMENDED FOR USE IN SALT WATER.

FEATURES & BENEFITS

INDUSTRY LEADING ENDURANCE

- Lasted 10% Longer than Closest Competitor (Based on Independent Testing)

THICKER LINER THAN COMPETITION

- Maintains PSI
- Keeps Tire Cooler
- Maintains Structure
- Better Durability

DOUBLE STEEL BELTS

- Reinforces to Prevent Expanding and Contracting
- Counter Acts Heat Cycle Damage
- Improves Towing Stability Under Load

FULL NYLON CAP

- More Puncture Resistant
- Combats Heat Cycle Damage

10/32" TREAD DEPTH IS 25% DEEPER THAN MOST COMPETITORS

- Longer Lasting Tread
- Low rolling resistance reduces tread wear and improves fuel economy

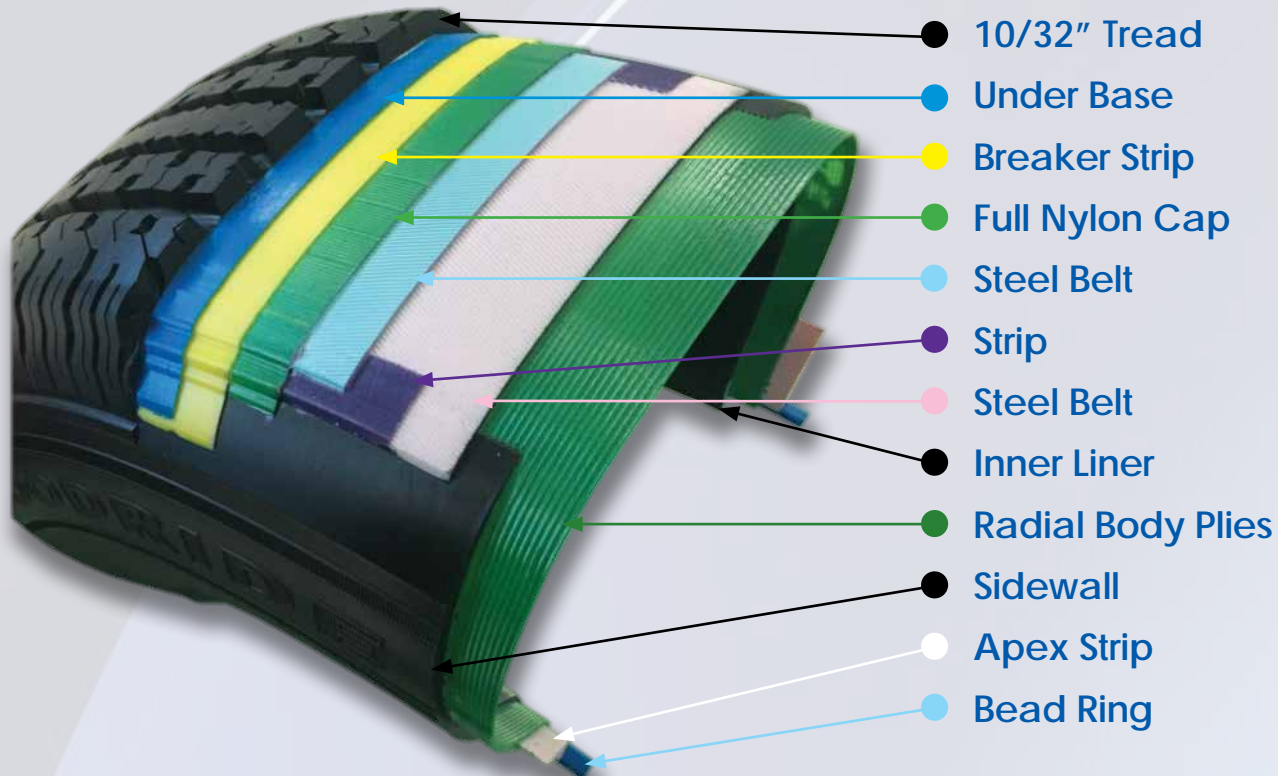

HEAT-LESS COMPOUND TECHNOLOGY

- Slows Down Aging
- Extends Tire Life

EZ-LATCH COUPLERS

Demco

Demco
eZ-LATCH COUPLER

Demco's exclusive coupler design locks when dropped over its appropriate sized standard hitch ball.

The eZ-Latch coupler is offered in an array of different hitch mounts in both 2" and 2 5/16" ball coupler sizes.

Mounting configurations include:

- Weld on or bolt on 3" tongue tube
- Weld on or bolt on A-frame
- Bolt-on adjustable height channel mounts

Demco's eZ-Latch advantage ensures you get a safe, secure connection the first time, every time!

Make sure your coupler has the eZ-Latch advantage!

All Demco couplers conform to SAE J684 safety Standards without the use of any Safety Pin
Demco 2" and 2 5/16" eZ-Latch Couplers are Patent #76906732

Benefits:

- Better Steering Control
- Better Braking Control
- More Comfortable Ride
- Much Higher Towing Capacity
- Less Wear & Stress on Tow Vehicle & Trailer
- Safer than Towing with a Ball Mount

LESS HASSLE • LESS STRESS • SAFER TOWING

FLASH

Every Flash™ ball mount is engineered, precision machined, and hand polished in America, using aircraft-grade aluminum. This means it will look and work great for years.

There is a Flash model to fit every need. Whether you tow multiple trailers, or just one, you won't find a faster, easier, or higher-quality ball mount that looks as great as the Flash.

E SERIES™

Adjustable Pin-style Ball Mount

The engineering, design, and craftsmanship of the E series™ is superior to any other pin-style ball mount on the market. Adjustments are quick and easy, making it effortless to switch between trailers and get on the road faster. Its gorgeous mirror finish will make heads turn every time you tow.

The Fastway Flash E series is the best looking pin-style ball mount you can buy. From stunning good looks to fast and easy adjustments, you'll be amazed every time you use it.

E series features:

- Fast and easy adjustments, saving you time and effort
- Polished aluminum, making your truck look its best
- Precision machined for strength and durability
- Aircraft-grade aluminum for corrosion resistance and outstanding performance
- Super strength alloy for years of safe towing
- 1,000 lb. max tongue wt. / 10,000 lb. max trailer wt.
- Limited One Year Warranty
- Made in the USA

CLEANERS AND POLISHERS

REF NO	ITEM NO.	DESCRIPTION
3	6700052	<p>ALUMINUM BRIGHTNER & CLEANER 1-GALLON</p> <p>Safely removes road film, grime, algae, scum, lime deposits, water line stains, oxidation, and brightens bare aluminum. Works just like the traditional aluminum cleaner and brightener (Hydrofluoric Acid Brightener) WITHOUT the negative hazards associated with that product.</p>
4	6700050	<p>BLACK STREAK REMOVER 1-GALLON</p> <p>Removes black streaks that have set deep into the paint finish over time on campers, trailers and other equipment. After using the black streak remover, you can apply Ultra Guard product to protect the finish and stop streaks from setting in again.</p>
5	6750053	<p>ULTRA GUARD 1-GALLON</p> <p>Use Streak Master Ultra Guard as Wet Wash or Dry Wash. Dilute Ultra Guard to the desired dilution for any given job. Spray directly to the surface to be cleaned and wipe away grime and stains. With a dry towel, lightly buff to a brilliant clean and shine.</p>

AMERICAN METAL

DESIGNED & MADE IN THE USA BY BLAYLOCK

CARGO DOOR LOCK

Latch & Bolt Door Lock System

- Cargo, live stock & specialty trailers
- Latch & bolt lock system
- 040-DL-80 Cargo Door Lock \$Price

KING PIN COUPLER LOCK

- Fits 18 wheelers and the heaviest 5th wheel RVs
- Cast aluminum collar securely held in place with a hardened steel pin
- TL-70 King Pin Lock 8200069

EZ DISK LOCK

Padlock

- Bolt proof design makes access to stainless steel shackle with cutters virtually impossible
- Case is constructed of stainless steel with deep laser welded seams for high tensile strength
- Shackle is forged of hardened steel
- Imported
- TL-45 EZ Disk Lock 8200096

UNIVERSAL COUPLER RECEIVER LOCK

- For commercial and recreational use
- Fits over 30 different coupler style/brands
- Sizes 2-2 5/16"
- Covers brands & styles of receivers including Buyer's, Atwood, Fulton, U-Haul, Pro-Series, Titan, Atwood, Demco, to name a few
- TL-33 Universal Coupler Lock 8200090

BULLDOG COUPLER LOCK

- For commercial and recreational use
- Fits couplers 17/8-25/16"
- Fits Hammerblow, Bulldog & RAM
- Patented design ensures the most secure way to leave an unattended trailer
- Solid hardened steel lock rod for security
- TL-20 Bulldog Coupler Lock 8200053

WHEEL LOCK

Wheel Lock with Lugnut Lock

- For Trailer, RV, Automobile
- Visible wheel lock
- Fits wheels 13"-16" (EZ-300) or 15"-20" (EZ-302)
- Two Screw in locks with keys securely hold the arms in place
- Made from the highest quality Aircraft Grade Aluminum
- EZ-300 Wheel Lock-Medium 8200165

PINTLE DRAWBAR EYE COUPLER LOCK

- Industrial, Farm & Ranch, Heavy Machinery
- For tandem dump trucks, on-site generators, etc.
- Fits 2-1/2" to 3" eyes
- Patented design secure 2 cast aluminum disks with a solid steel locking pin
- TL-60 Pintle Drawbar Lock 8200057

GOOSENECK COUPLER LOCK

- For heavy trailers, livestock haulers, RV's
- Fits all gooseneck 2 5/16" style couplers (TL-50) and 2-5/16" RAM™ gooseneck style couplers (TL-55)
- Brands include Bulldog, T.E.M., TEMCO, Hammerblow/Cequent to name a few
- Patented design ensures the most secure way to leave an unattended trailer
- TL-50 2-5/16" 8200430
- TL-55 RAM™ 2-5/16" 8200430

GOOSENECK ADJUSTABLE SLEEVE LOCK

- For RV's, livestock haulers, heavy duty trailers
- All gooseneck style couplers
- Secures the adjustable sleeve locking the coupler in place
- Patented design ensures the most secure way to leave an unattended trailer
- Solid hardened steel lock rod for security
- TL-51 Adjustable Sleeve Lock 8200168

TOTAL ENCASEMENT BULLDOG COUPLER LOCK

- Recreational and industrial use
- Fits 2" (TL-22) and 2 5/16" (TL-23) bulldog style couplers
- One piece easy to use push button construction
- Covers hammerblow, cequent, bulldog
- Solid cast aluminum construction completely encases the receiver
- Hardened solid steel pin securely fastens lock over the coupler
- TL-22 2" 8200166
- TL-23 2-5/16" 8200166

LIP ENGAGING COUPLER LOCK

Push Button Lip Couplers

- For recreational trailer use
- Fits 2-5/16" couplers (TL-34), 2" couplers (TL-36), and 1 7/8 - 2" couplers (TL-38)
- Covers the following brands: Fulton, Feather Light, Ranger, most bumper pull RVs
- TL-38 Built-in Lock 1-7/8" 8200166

7010021	FORD/CHEVY ADAPTER*

*NEEDED FOR FORD & CHEVY VEHICLES WITH INTEGRAL TOW PACKAGE ON 2006.5 & UP MODELS.

Brakerite EHB is designed to be hard wired into your trailer's electrical system. All components are self-contained under the BrakeRite cover.

BrakeRite II Severe Duty provides complete plug-in wiring harnesses for a plug and play installation.

•7010015

ELECTRIC OVER HYDRAULIC

Titan has been a pioneer in the Electro Hydraulic Brake (EHB) actuator industry beginning in the early 1990s. In the new millennium, Titan developed and tested the BrakeRite EHB that was introduced in early 2002.

The features of the BrakeRite EHB and the BrakeRite II include:

- First in the field with an electronic proportional pressure valve
- The most rapid response from brake actuation to total dynamic braking in the industry
- Hybrid electronic control board compatible with most in-cab brake controllers
- Ongoing plant performance testing and each production unit is bench tested
- Research and development is standard at Titan
- Pump/motor based
- Isolated fluid reservoir with diaphragm type valve filler cap

ELECTRIC OVER HYDRAULIC

HYDRASTAR

CONVERSION SYSTEM
Works with FORD, DODGE and GM Factory Brake Controllers.

- 1-3 Brakes
- Brake Actuator for DISC or DRUM Brakes!
- Complies with CFR-393 Federal Braking Requirement.
- Meets All D.O.T. Regulations.
- 2-Year Limited Warranty

MODEL ID NO	ITEM NO	ID NO
1000 PSI (HBA-10)	7010001	381-7065
1200 PSI (HBA-12)	7010009	381-7066
1600 PSI (HBA-16)	7010002	381-7067
1000 PSI (MHBA-10) PLUG & PLAY KIT	7010019	481-8065
1600 PSI (MHBA-16) PLUG & PLAY KIT	7010018	481-8067

HYDRASTAR PLUG AND PLAY KIT INCLUDES:
Hydrastar Electric over Hydraulic Actuator, 7 way insulated trailer harness, 7 pole junction box, Adhesive backed mounting pads, 6' split wire loom, all mounting/wiring hardware and connectors.

Note: 9500067 Is Required If Line Kit 9500014 Or 9500015 Is Selected.

The Hydrastar Electric Over Hydraulic (Eoh) Trailer Brake Actuator Gives You The Reliability And Confidence You Expect And Need From Your Trailer Braking System. With Hydrastar You Get The Fastest Response Time For Shorter Stopping Distance, So In Emergency Situations And In Your Day To Day Towing, You Can Control Those Precious Fractions Of A Second That Matter When It Comes To Stopping Your Trailer.

Industry Leading Hydrastar Actuators Are Easy To Install And Meet All Dot And Federal Braking Requirements - Unlike Surge Brakes, Which Are Illegal In Many States. Hydrastar Has Improved The Stopping Performance For Trailers Hauling Boats, Rv/Towables, Horses, Cars, Construction And Farm Equipment, And Many Other Loads.

Features & Benefits:

- 2 Year Warranty From Date Of Purchase
- Sealed, Extruded, Anodized Aluminum Housing (Not Cast Or Plastic)
- Dimensions: 11.8" L X 3" W X 7.3" H
- Trailer Mounted
- 12 V DC Operation
- Solid State Electronics
- Uses Dot 3 Or Dot 4 Brake Fluid
- Easy To Install, (4) 12Ga Wires
- Black - Constant Power
- Blue - Brake Controller
- White - Ground
- Yellow - Break-Away
- Available In 1000,1200, And 1600 Psi For Any Trailer Configuration With 1-3 Axles
- Meets All Dot Regulations
- Complies With Cfr-393 Braking Requirements

ACCESSORIES

REF NO	ITEM NO	DESCRIPTION
1	7010003	HBA-CAM: ALLOWS GEN 6 OR LATER HYDRASTAR ACTUATORS TO WORK WITH INTEGRAL ELECTRIC BRAKE CONTROLLERS ON FORD MODEL YEARS 2007-2008 AND CHEVROLET MODEL YEARS 2007-CURRENT. SPLICES INTO HYDRASTAR ACTUATOR WIRING AND CAN BE MOUNTED ANYWHERE.
2	7010006	HYDRASTAR REPLACEMENT CAP

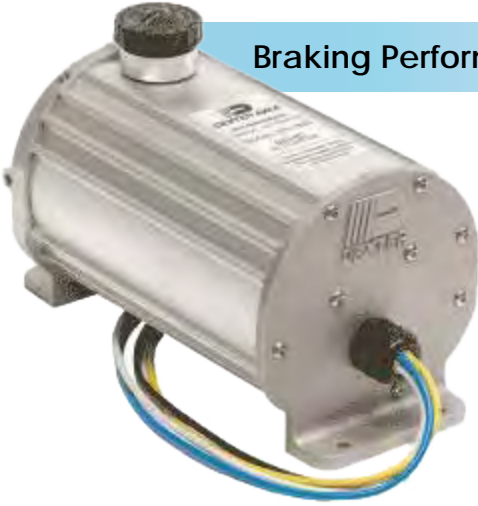

ELECTRIC OVER HYDRAULIC

ELECTRIC OVER HYDRAULIC

Braking Performance You Can Depend On Stop After Stop.

Dexter Axle Brake Actuator Provides 1,000 Psi (For Drum Brakes) And 1,600 Psi (For Disc Brakes) Of Pressure For 1-3 Axles.

AXLE TYPE APPLICATION	MODEL ID NO	ITEM NO	ID NO
DRUM	1000 PSI (DX-1000)	7010004	K71-650-00
DISC	1600 PSI (DX-1600)	7010005	K71-651-00

The Dexter Actuators ARE NOT Compatible With The GM Integrated Brake Controller.

ACCESSORIES

ITEM NO	DESCRIPTION
7010006	BRAKE ACTUATOR REPLACEMENT CAP

WORKS WITH FORD AND DODGE FACTORY BRAKE CONTROLLERS

7010004 Dexter K71-650-00 Electro/Hydraulic Brake Actuator Provides 1000 Psi Of Pressure For 1-3 Axles Equipped With Drum Brakes. Brake Fluid Pressure Is Proportional To The Electronic Brake Controller Signal. Sealed Housing Provides A Weather Tight Seal. Five Year Limited Warranty.

7010005 Dexter K71-651-00 Electro/Hydraulic Brake Actuator Provides 1600 Psi Of Pressure For 1-3 Axles Equipped With Disc Brakes. Brake Fluid Pressure Is Proportional To The Electronic Brake Controller Signal. Sealed Housing Provides A Weather Tight Seal. Five Year Limited Warranty.

Meets Or Exceeds All D.o.t. Regulations And Federal Braking Requirements.

All Stainless Steel Fasteners For Superior Corrosion Resistance.

Goretite® Seals Protect The Circuit Board From Water And Provide Protection Against The Elements.

Finned Housing Design Helps Dissipate Heat More Efficiently For Long-Lasting Durability.

Incorporates Enhanced Wiring Protection To Prevent Possible Damage To The Unit If Wired Improperly.

Solid State Electronics For Improved Performance And Compatibility With Most Aftermarket And Oem Integrated Electric Brake Controllers On The Market.

Large Brake Fluid Reservoir And Self-Priming Pump Reduce The Time Required For Brake Bleeding While Preventing The System From Running Dry During The Process.

Unrestricted By Brake Fluid Displacement Requirements Eliminating The Risk Of Starving Brakes For Fluid.

Allows For Use On Single, Tandem, Or Tripler Axle Configurations Regardless Of Capacity.

Provides Braking Power When Moving The Trailer In Reverse.

Eliminates The Feeling Of Being Pushed By The Trailer Which Reduces The Possibility Of Jackknife Situations.

Eliminates Brake Drag Commonly Experienced When Using Surge Actuator Systems In Downhill Towing.

ITEM NO	ID NO	DESCRIPTION

HYDRAULIC BRAKE LINES

HYDRAULIC BRAKE LINE KITS • DRUM

Hydraulic Line Kits Come Complete With All Fittings Needed To Connect Hydraulic Brake Axles. Kits Begin With A Basic Single Line Kit And With The Additional "Add-On" Kit You Can Plumb More Brakes. Choose From Steel (With Alum Galvan Finish), Stainless Steel, Torsion Or Dot Approved "Flex" Line Kits. The Standard

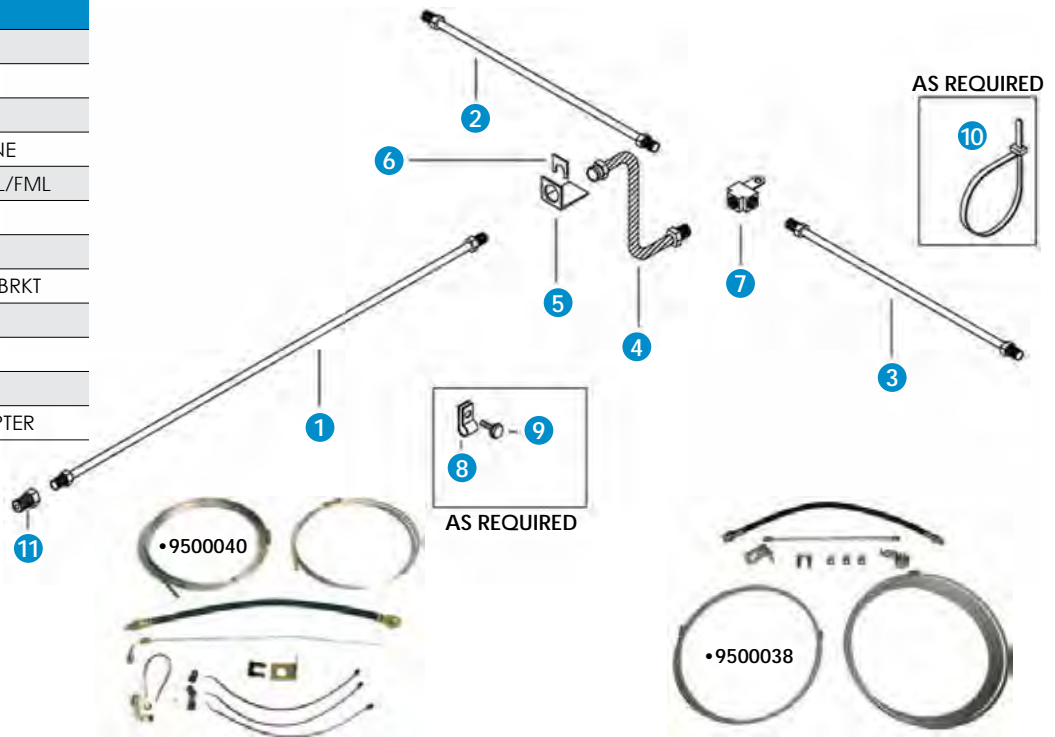

Hydraulic Brake Line Kits Listed Below Are Designed To Be Used On Trailers Using Either Surge Brake Actuators Or Power Brake Actuators And Are Manufactured Using Double Wall Brazed Low Carbon Steel Tubing In Accordance With Sae J527.

ITEM NO	ID NO	DESCRIPTION
9500038	AG-100SA	LINE KIT - SINGLE AXLE DRUM 3/16" X 15'
9500040	S-100SA	LINE KIT - SINGLE AXLE DRUM STAINLESS STL 3/16" X 15'

Choose This Line Kit For A Single Axle Drum Trailer. For A Tandem, Add-On One Of The Kits Below. I.e., If You Select Ag-100Sa, Then For A Tandem Select Ag-130Sa Also.

TUFF BRAKES.

WHEN PERFORMANCE COUNTS BLUDOT TRAILER BRAKE SYSTEMS DELIVER

Bludot designs and builds the highest quality, pre-packaged trailer brake line systems for manufacturing assembly lines, trailer maintenance and replacement parts. When performance counts, Bludot delivers. And we deliver fast—most of the time within 48 hours.

Order Bludot brake systems ready for the assembly line, pre-designed to your specifications, pre-packaged to your request, and delivered to your facility when you need it. Save time and money consolidating your brake line parts and kits with Bludot brake systems.

From hydraulic brake lines and kits, air/hydraulic, straight air, or flexible line kits, ABS and non-ABS system parts, along with a variety of controllers and components, Bludot is your brake line manufacturing, distribution or replacement source.
